Care that comes to you.

Start getting well, sooner.

We understand that illness can strike at anytime, including when your regular GP is not available like on weeknights, weekends, and public holidays. That's why, as part of Bupa's commitment to caring for our members we're giving you access to After Hours Plus from National Home Doctor Service.

If you're unwell after hours you can book a bulk billed home visit from National Home Doctor Service, and as a Bupa health insurance member you will be treated as an After Hours Plus patient.

This means you can be supplied medications from a list of commonly prescribed antibiotics and other medications on the spot, at no cost so treatment can begin immediately. Usually \$59 per year, as a Bupa member, you'll get complimentary access to After Hours Plus.

Home visits

Care will come to you, after hours.

Out of hours care
